

Accelerated Reader - Term 2

- Accelerated Reading is a programme that is used within the school for P4-P7 classes.
- This week the children will be completing their STAR Reading Tests to determine their reading level which ensures each child's target is personalised and relevant to their individual ability in reading. Every child will receive a new personalised goal /target from this Monday 17th January and should they complete their target they will receive a 'No homework' pass for one night. Children are able to track their progress each time they log in to Accelerated Reader.
- This term the children will be put into five reading teams, with each team having a range of children from P4-P7. The winning team will receive a trip to the cinema and lunch and each child must have achieved their target in order to attend the trip. This encourages a team effort from all involved.
- We are also eager to see plenty of Word Millionaires and hopefully Double Word Millionaires.
- 15 minutes per day is set aside in class for AR and children should be reading for at least the same amount of time at home.
- Accelerated Tests cannot be completed at home or at weekends. They can only be completed during school time from Monday 17th January on books they have started reading from they returned to school in January.
- Children will have until Thursday 31st March to complete their AR tests and hopefully aim to reach their personal targets.
- The winning team will be announced on Friday 1st April. Happy reading everyone!
